Lead Times

- Juice Express Plus: Five business days* (add two days for custom**)
- Juice Express: 10 business days* (add two days for custom**)
- Juice Standard: 15 business days (add two days for custom)
- FOB Chicago.

Lead times vary by order volume. Champro will confirm lead time after the customer approves artwork. Production begins the day after artwork approval. Approvals received after 4 p.m. CST will be processed the next business day. Lead times are manufacturing days and do not include shipping to the customer from our distribution center.

*Program may be suspended if capacity is not available. Orders will be accepted in the order in which they are received. If capacity is not available for the lead time date, the order will be processed the next available day.

**If additional preproduction work is needed to ensure graphics are recreated correctly, Champro may add additional processing time.

Minimum Order

- There is a six-piece order minimum per style, per color.
- Customers will incur a 25% per-piece upcharge for orders of fewer than six pieces.
- There is no upcharge or minimums for fill-in orders with the same design and graphics. A 25% upcharge applies if the customer requests changes to the fill-in order.

Order Submission

- Champro will not accept orders without a PDF and roster from the Custom Builder or an electronic order form. Contact our customer service department for an electronic copy of the order form.
- Build and order your uniform online at champrosports.com or email it to juice@champrosports.com.

Custom Juice Submission

- There is no art charge for template designs or numbers.
- Template designs within a sport are interchangeable, but template designs requested in another sport pattern will incur a set-up charge of \$50.
- Unique designs not based off a Champro template will incur a one-time \$50 set-up charge.
- Customers must specify all colors, decoration, locations and sizing.
- Any custom orders not submitted with specific direction may be subject to artwork fees.
- Customers must submit artwork in one of the acceptable artwork formats below.

Acceptable Artwork Formats

Vector Art

- We accept print-ready vector art files in the following formats: Adobe Illustrator (AI), EPS or PDF. Vector art can be scaled to any size while maintaining quality.

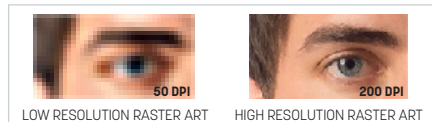

Vector art is always preferred. Please remove any overprints within your file; these will drop out when printed. If vector art cannot be supplied, files that require digitization will incur a graphic design service charge at the rate of \$50 per hour with a minimum charge of one hour.

- PDF files will be converted to AI; we are not liable for any errors during conversion.**

Raster Art

- Raster art, otherwise known as bitmap art, is composed of pixels grouped together to make one complete image. When scaled larger, the image will look pixelated. If you must submit a raster image, make sure the resolution is 200 dots per inch (DPI) or larger.

Outlined Fonts

- Outlined fonts are required for all artwork formats. Font selection can vary on different computers, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed or convert them to shapes before submitting artwork. If you require a specific font, you must submit the name of the font and the font file (TTF or OTF).

Embedded Images

- Most programs allow the user to add an image to a file by linking or embedding it. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can vanish when opened from a different computer. Please embed all images to avoid losing them when you submit files. Any embedded images must be high resolution. If submitting a PSD file, all layers should be flattened.

Unacceptable File Formats

- Microsoft Office, InDesign, Quark, Corel Draw, Publisher or low-resolution scanned images.

Graphic Design Services and General Details

- If you cannot supply vector art, Champro can create it for you for \$10 per logo. For complex logos that require more design time, the cost may be higher. Champro will contact you before we create it.
- Champro reserves the right to adjust the size of decoration proportionally to garment size.
- Champro will not be responsible for errors resulting from copy that was received or approved incorrectly.
- Proofs provided electronically should not be used for final color output or image resolution.

Roster and Artwork Approval

- Champro will send an email with order acknowledgement and proof of the order.
- The customer must review the order, proof for accuracy and approve for production.
- All information on the proof and roster will be considered correct after receipt of customer approval.
- Champro will acknowledge receipt of approval and confirm lead times.
- Production and lead time will not begin until Champro receives the customer's written artwork and roster approval.
- Champro will not accept changes to an order after we receive artwork and roster approval. The customer must submit any additional changes as a new order.

Shortages, Claims and Cancellation

- Customers must report any order claims or shortages within 10 business days of receiving their goods.
- Champro will not accept cancellations or changes after the customer approves the order.
- Any cancellation after this time will be subject to 50% charge of the order total.

Color Disclaimer

- It is not possible to achieve a perfect color match from one Juice garment to another or from Juice garments to Champro stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone color callouts will automatically be converted to CMYK. If your order is color-sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless the customer orders a sample, Champro is not responsible for unsatisfactory color results.

Color Matching

- We cannot color match gradients. We print digitally in CMYK and use PMS colors as a guide; therefore the colors are not exact. If you have a color-sensitive project, we highly recommend that you order a sample. In the event that you do not, we will match as close as possible to the PMS colors provided, but Champro is not responsible for the colors not printed to your liking.

Care Instructions

- Do not dry clean.
- Do not wash in hot water, chlorine bleach, wash whites and colors together, or dry on high heat.
- Excessive heat may cause fabric shrinkage and color change.
- Do not put Juice garments through a screen print dryer.
- Champro is not responsible for damage to apparel as a result of improper care.

Artwork Disclaimer

- Champro wants to work with you to put your designs, artwork and logos on the products you purchase from us. Any such designs that Champro prepares for you ("Artwork") will be the property of Champro and will remain Champro intellectual property, even if you have paid a fee for our design services. You will receive the Artwork only as it appears on goods purchased from Champro and not in any electronic format. We will have the right to use the Artwork for any lawful purpose, including without limitation, for sales and advertising.

- You represent that you have all the appropriate rights to use Customer Designs that you provide to Champro, and you agree to indemnify and hold harmless Champro for all costs or damages arising from a claim of infringement against Champro related to your Customer Design. Champro may request that you provide written proof of your rights to use any third-party logo or trademark prior to Champro using such logos or incorporating such logos into your Artwork. However, Champro making any such request does not affect your obligation to indemnify and hold harmless Champro for all costs or damages arising from a claim of infringement against Champro related to your customer design.

UPF STATEMENT

Ultraviolet Protection Factor (UPF) indicates the extent to which a type of fabric blocks ultraviolet (UV) radiation, including ultraviolet A (UVA) and ultraviolet B (UVB) rays, from reaching the skin. Champro conducts third-party UV protection testing in accordance with the American Association of Textile Chemists and Colorists TM183 test protocol. All fabrics are tested in unwashed and unworn condition, and testing is performed on dry, white fabric. Garments white in color typically exhibit the lowest-rated UPF of any fabric color. The protection the fabric on these garments offers may be reduced when the fabric is damp, wet, fits tightly and/or is stretched. The UPF rating, and therefore protection, of these garments may diminish over time due to frequent wear, laundering and/or other factors. Only skin the fabric covers is protected from sunlight exposure. The UPF rating Champro provides for a garment in this catalog represents the lowest UPF rating observed during testing. For garments that consist of multiple fabrics, please refer to the UPF Rating column in the Fabric Guide: Stock Apparel chart on Pages 84 and 85.

Important Note

The measurements listed in the charts below are body measurements (in inches), not garment measurements. If your body measurement borders between two sizes, order the smaller size for tighter fit or the larger size for looser fit.

How to Measure

Bust/Chest

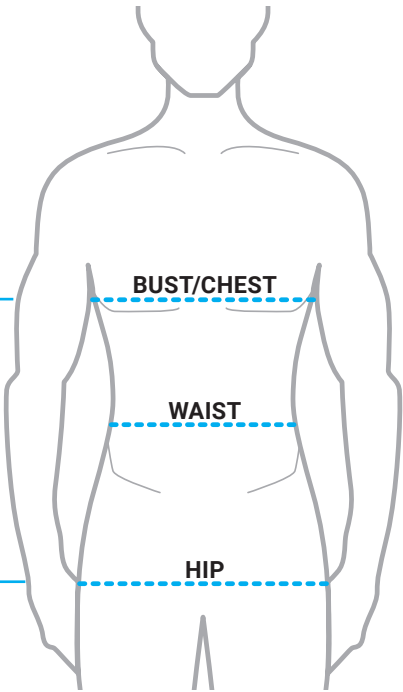

With arms relaxed at sides, measure around the body at the fullest part of the bust or chest, keeping the tape parallel to the floor.

Waist

Measure around the body, not on top of clothing, at the natural waist level.

Hip

With feet together, measure around the fullest part at hip level, keeping the tape parallel to the floor.
